

# REMEMBER THE DUGONGS!

Go slow in seagrass areas! If you see a dugong slow down to 6 knots!

Don't anchor or park where seagrass bed is as the boat will block the sun, which is essential for seagrass to grow!

If you see a dugong, keep 40 m distance - don't enter water to swim with them or touch them!

Do not feed or throw any objects in the water near the dugong!
